## **From The President**

Indoor flying is now complete at Oliver Stephens and Glendale High schools. Good strong finish with many members taking advantage of the calm and warm conditions inside this winter. The weather is slowly cooperating with outdoor flying. The spring clean-up event went well, 12 members were able to help out with brush clean-up and chute clean up. The parking lot is still saturated with all the rain from the past week. The laneway project will be completed at a later date. With the new TC rules coming down over the area, the club members need to be proactive in communicating that the Woodstock field is a great place to fly and invite them out to check out the club. Bring your new/updated project for a show and tell after the club meeting this Monday.

See everyone at the field.

Bryan Mailloux
