From The President

Spring is coming very slowly this past month. I hope everyone is getting the itch to fly outside again on those warm spring days. Tillsonburg airport breakfast, and indoor will continue for a few more weeks. Hope you can make it out.

Upper Thames land lease renewal was submitted and approved again for 2017. Discussions were heard about current concerns. They are anxious about being able to host an R/C float fly event at the day use area. Club will need an event coordinator for this event to be successful.

A few weeks ago new in term rules were put in place by Transport Canada, Frank K will be discussing the effects of these new guidelines.

The club was fortunate to participate in several events over the past month. The Woodstock rec. and leisure fair was a success with many people checking out our booth and the club made many great contacts with potential members. Oliver Stephens School had 6 classes check out the R/C discussion and demo put on by several members. Great to see many kids take an extra keen look into this great hobby.
