## **From The President**

Rain rain and more rain, the wet spring weather is upon the area. We are fortunate enough to have fairly good drainage at the Woodstock field runway. The main challenge is travelling back to the site and finding a dry parking area. Please travel slow on laneway and park on driveway near storage shed. Give it a bit of time and the normal parking area will be dry enough to use. April is the last meeting of the season and the club still has some items to talk to with all the events planned this spring and summer. Your input is needed.

Our Facebook page has been changed due to technical issues. The new name is "Woodstock R/C Flying Club" Members and guests are encouraged to please join this open group where discussion and many items are shared on this social media platform.

I have heard that many great models were at last month's meeting that have or will be flown soon. This month it is encouraged for more models to be brought for the final show and tell meeting.

I hope to see you at the airfield or local event soon. Stay informed with our club website. [Woodstockrc.club](http://Woodstockrc.club)
